

GreenMind Product Roadmap

Phase 1: Minimum Viable Product (MVP) [Months 1-2]

- Develop core break reminder functionality with customizable intervals
- Implement multiple reminder types (popup, sound, vibration)
- Basic UI focusing on simplicity and ease of use
- Allow snooze/delay options for reminders
- Conduct user testing with college student participants

Phase 2: Enhanced Features [Months 3-4]

- Add user profiles to save preferences
- Implement reminder history log
- Enable customizable break durations
- Introduce dark mode support

Phase 3: Future Enhancements [Months 5+]

- Integrate with calendar/task apps for smarter reminders
- Develop gamification features (challenges, rewards)
- Cross-device synchronization (desktop + mobile)
- Add social/community sharing

Continuous

- Collect user feedback to improve UX/UI
- Monitor app performance and fix bugs
